## CA Forest Stewardship Workshop & Master Gardener Classes Oct 2024

### California Forest Stewardship Workshop

Online October 9 - December 11, 2024,  
and in-person Saturday, November 2nd  
in Humboldt County

Join the workshop to better understand  
and protect your forests by developing  
a Forest Management Plan. Topics  
include:

- Forest management objectives and planning
- Forest health
- Forest and fire ecology, wildlife, watersheds
- Fuels reduction, targeted grazing, and forest resource marketing
- Mapping, inventory and silviculture
- Project development & permitting

### Join Our Team of Master Gardener Volunteers!

Are you motivated to help others become better horticulturalists? The UC Master Gardener program in Humboldt & Del Norte Counties will offer an 18-week training program beginning this January to teach research-based horticulture practices. Trainees then volunteer in their communities to share this information through talks and classes, answering help desk questions, working in local demonstration gardens, answering questions at events, and more.

The purpose of the UCCE Master Gardener program is to meet identified horticulture and pest management education needs of the residents in

•Getting professional help and cost-share opportunities

Participants will utilize online resources on their own time to complete learning modules and short activities.

Humboldt and Del Norte. The certified MG volunteers provide an organized approach to addressing demands for information and problem-solving help and focus on educational programs that address the Strategic Vision of UC ANR.

Classes will be held over Zoom, with additional opportunities for hands-on learning. If you're interested, please complete this [UC Master Gardener Training Questionnaire](#). We will hold mandatory orientation in late October. To learn more about the program and training process, visit our website at [UC Master Gardeners of Humboldt & Del Norte Counties](#).

We are dedicated to improving the quality of life of Californians by developing and delivering research-based information in agriculture and natural resources, and by supporting healthy families and communities.

Facebook Website

We have excellent resources on many subjects, including growing vegetables and fruit trees, how to address pests of the home and garden, range and forest management, and curriculum for 4-H projects.
