Master Food Preservers

November 2017

Help upgrade the teaching kitchen

Can you help to upgrade our 1960's teaching kitchen to a 21st century modern kitchen? On November 28th, Humboldt County UCCE will participate in [#GivingTuesday](#), a global day of giving celebrated the Tuesday after Thanksgiving. Please join us in [making a donation](#) during this Giving Tuesday campaign for phase one improvements. Our goal is to raise \$5000 to install a

Become a Master Food Preserver

Join us for the 2018 series of [Master Food Preserver \(MFP\) train-the-trainer classes](#) so you may *Preserve Today and Relish Tomorrow*. Learn research-based information about food preservation, freezing, dehydration, and fermentation through fun, skill based hands-on learning. All MFP participants share knowledge and skills learned from the training through local community outreach such as classes and workshops, hands-on demonstrations,

new stove top, cameras and screens to project the teaching for easier participant viewing, and a new dishwasher. With some modernizing the upgraded teaching kitchen will fill a community need for facilities available to teach nutrition, cooking, master food preserver classes, and 4-H cooking classes. Your donation will provide a lasting legacy.

For more information, please visit our donation [website](#) or call Dorina Espinoza at 707-445-7351.

county fairs, websites and blogs, and/or print and digital media. Prior food preservation knowledge is not a requirement for the MFP training, but willingness to teach others is. Classes will run from February 3rd – March 12th on Saturdays and Monday evenings in Eureka. December 15th is the registration deadline and a 2 hour orientation will take place on January 20th.

For more information, please visit our [website](#) or call us at 707-445-7351.

We are dedicated to improving the quality of life of Californians by developing and delivering research-based information in agriculture and natural resources, and by supporting healthy families and communities.

Facebook Website

We have excellent resources on many subjects, including growing vegetables and fruit trees, how to address pests of the home and garden, range and forest management and curriculum for 4-H projects.
