Community Choice Energy

May 2017

Community Choice Energy comes to Humboldt

Power to the people! May marks the enrollment of energy customers within Humboldt County in a [Community Choice Energy](#) (CCE) program. This program was designed by local city councils and county supervisors and will offer lower rates on electricity -- keeping the benefits and control right here. The program will source 40% of its power from renewables during the first year, such as hydro, wind, solar, and geothermal. PG&E will

Thank you to our community partners and volunteers!

We would like to thank our community partners who work together with us to tackle shared issues and achieve common goals. These individuals and organizations provide essential services and support while enriching the local community and extending our work at Cooperative Extension.

In this [2016 Year in Review](#), we offer

solar, and local biomass. PG&E will continue to deliver electricity and maintain the power lines. The program has been several years in development through [Redwood Coast Energy Authority](#). Humboldt is fortunate to have several sources of locally produced energy and UCCE's Yana Valachovic worked with local city councils and boards to help answer questions about [local biomass](#) energy generation throughout the development of the CCE. Over 1,000 Community Choice Energy programs are currently operating in the United States, and with its launch this month Redwood Coast Energy Authority's program becomes the eighth CCE in California.

highlights of how our programs touch families, communities, and local businesses. To accomplish our mission, we partner with both Humboldt and Del Norte Counties to offer practical solutions to life's challenges, connecting the issue to the information resources of the University of California, and providing trusted research-based solutions.

All of us at Cooperative Extension feel so fortunate to work with you. If you are looking for an opportunity to give back to your community, consider becoming a [4-H leader](#) or a [Master Food Preserver](#).

We are dedicated to improving the quality of life of Californians by developing and delivering research-based information in agriculture and natural resources, and by supporting healthy families and communities.

Facebook Website

We have excellent resources on many subjects, including growing vegetables and fruit trees, how to address pests of the home and garden, range and forest management and curriculum for 4-H projects.
